October 18, 2010

Dear Fund Participant:

The Board of Trustees is pleased to announce that Sav-Rx, our Prescription Benefit Manager, will provide Disease State Management on behalf of North Central Illinois Laborers' Health and Welfare Fund. This program for you and your eligible dependents is a continuation of a similar program that was implemented in 2007. If you did not have one of the disease states previously or chose not to enroll at that time, you will have the opportunity to enroll now.

The Disease Management Program is voluntary and is designed to assist individuals in managing chronic health conditions and the impact they have on your daily life. This program is being offered to you at no cost. Sav-Rx has over 35 years experience in managing prescriptions and has recently expanded this service to help you manage your chronic disease state. This program was designed to bring your whole body health into consideration through consultation with physicians, pharmacists, registered nurses, dieticians, physical and respiratory therapists, and certified diabetes educators, all coordinated through your Health Coach. We focus on education to help you make good choices regarding your condition and how you can begin to control it. Programs available include **Low Back Pain, Depression, Cancer, Asthma, Diabetes, Coronary Artery Disease, Hypertension and Heart Failure.**

If you have experienced claims for any of these chronic conditions, Sav-Rx will be contacting you over the next few months to describe the benefits of the program in greater detail. Additionally, if you feel you qualify and have not received your enrollment form yet, you may call Sav-Rx at 800-228-3108 and ask to speak with a Health Coach.

We encourage you to take advantage of this benefit. If you have one of the above listed disease states and enroll in the program for a full quarter (consecutive three-month period designated by the Fund), you will receive **three \$10 Sav-Rx Vouchers** at the end of that quarter. Therefore if you participate for four quarters you would receive a total of \$120 in vouchers for one year of enrollment. The vouchers can only be used towards prescription drugs for you and your dependents as long as you are eligible with the Fund and are not valid for over the counter purchases.

The Board of Trustees is excited about this program and the opportunities it presents to impact your quality of life.

Sincerely,

Board of Trustees
North Central IL Laborers' Health & Welfare Fund
